# UNTITLED, ART.

Untitled Art is an international curated art fair that focuses on curatorial balance and integrity across all disciplines of contemporary art. Founded in 2012, Untitled Art selects a curatorial team to identify and curate a selection of galleries, non-profit institutions/organizations, and artist-run exhibition spaces in discussion with an architecturally designed venue. The dialogue developed between curators and architects, and the collaboration with galleries and their artists, creates a diverse range of programming – performances, discussions, events and special artist projects that furthers Untitled Art's innovative approach to the standard fair model.
